

30 Year **Solar Monitoring & Warranty**

**Peace of mind
starts today.**

Solar Protection on a Mission

Solar Insure's core passions lie in renewable energies and their potential for transforming the world by slowing down climate change and fostering energy independence. For over 15 years, our mission has been **to protect consumer investment in solar and accelerate the transition to renewable energies.**

Why Solar Insure?

As solar power continues to grow in popularity, there is an ever present need to minimize liability and build trust with consumers. Warranties can vary from one manufacturer and installer to another, causing confusion and uncertainty. **Solar Insure makes it easy with a 30-year component monitoring and warranty on parts, labor, roof penetrations and more....**

Who Can You Trust?

In an ever increasingly saturated industry, it's important to know and trust. How do you know who you are doing business with?

Consumer Skepticism

Consumers are more educated and skeptical than ever and are more likely to work with companies they know and trust.

Insolvency of Manufacturer

Whether a manufacturer or installer goes out of business or fails to support their products, you may be at risk.

30-Year Warranty Protection

Monitoring

Our monitoring technology reports component failures so that we can help your installer or our service provider respond to issues quickly.

Covers Parts & Labor

Zero deductible and no hidden fees or surprise labor expenses guarantee that you'll never pay out of pocket on covered claims.

Protection for Generations

An insurance backed warranty ensures that you and your loved ones will be protected for years to come.

Transferable Ownership

Our warranty transfers from homeowner to homeowner, should you decide to move.

Solar Installer

Vetting process

We only work with companies that meet our **high standard of quality workmanship and customer service.**

- ✓ Company Background Check
- ✓ Contractor License Check
- ✓ Insurance Requirements- Claims History

Costs of Owning a Power Plant with **Solar Insure** - \$0 Deductible

A Homeowner's Guide to Solar Panel Warranty Responsibilities

As a homeowner, you want to be prepared in the event that there is any failure associated with your solar panels. This illustration shows the individual components in your system and typical costs associated with their replacements.

Example Claims

PANEL

Homeowner has Solar Insure's Monitoring & Warranty

- 1 panel failed on day 197 after install. Manufacturer replaced panel, however the labor and travel are the biggest expense
- Solar Insure payout: **\$565.00**
- **Customer out of pocket = \$0 deductible**

INVERTER

Homeowner has Solar Insure's Monitoring & Warranty

1 Inverter Failure labor and truck roll cost \$700

- Manufacturer paid \$225
- Solar Insure paid the balance of the call and labor at \$475.00
- **Customer out of pocket = \$0 deductible**

Pricing varies depends on system size, equipment and market

Outstanding Service & Solutions

Providing quality service to our customers is the cornerstone of everything we do.

5 Star Customer Service

Our customers are our number one priority, so whether you have a simple question or are in crisis, **we'll be there.**

Hassle-Free Online Claims

Your installer is able to file claims quickly and easily with our online claims portal which helps streamline the claims process.

No Hidden Fees

Our warranties cover parts and labor, so **you won't incur unexpected fees** or out-of-pocket expenses on covered claims.

Homeowner **benefits**
